What is the SISTA Project?

The SISTA Project is an Australia-wide opportunity for schools to access quality science education experiences, designed to inspire ALL Australian kids to reach their full STEM potential. Backed with funding from the Australian Government, subsidies allow us to reach more students in more places in our mission to increase the number of girls studying and pursuing STEM pathways.

Become a SISTA Project partner school to provide your students and teachers with a year-on-year subsidised program of award-winning STREET SCIENCE learning activities, scientist mentorship and professional development.

What's included for SISTA Project partner schools?

Partner schools receive multiple-years of Street Science engagement including:

- Curriculum-aligned science shows for every year level
- Hands-on workshops with supportive teacher resources
- Inspiring Q&A sessions with female science professionals
- Teacher PD on cutting-edge science engagement strategies
- Invitations to ongoing science education and STEM pathway resources.

Subsidies up to 55% available to eligible schools

Can my school become a SISTA Project partner?

The SISTA Project is available across Australia, face-to-face and streamed online.

Metro visits from July 2023

Regional tours from Oct 2023

National broadcasts from July 2024

Subsidies are limited and eligibility will be assessed on a school-by-school basis. Register your interest and a member of the Street Science team will call to discuss the program and your school's eligibility.
